NAV and price development

Monthly commentary

The net asset value ("NAV") of Princess continued to develop positively in April, closing the month at EUR 7.95 per share. This corresponds to an increase of 2.56% compared to the March NAV and follows a strong 5.65% rise in the NAV during the first quarter of 2010. Valuations of the companies in the Princess portfolio witnessed a continued rebound during the month with portfolio companies in the small and mid-cap buyout segment having a particularly favorable impact on the NAV. Valuation developments overall had a positive effect on the NAV of 1.39%. With the US dollar further appreciating against the Euro in April, the foreign exchange movements also contributed positively to the NAV.

Princess continued to benefit from sound investment and exit activity in the portfolio. In April, Princess received EUR 4 million in distributions from exited investments while also investing EUR 4 million in new investment opportunities. Amongst others, Princess received partial distributions from the IPOs of Kabel Deutschland, Germany's largest cable television operator, and Brenntag, the world leader by revenues in the distribution of chemical products. BC Partners, which bought Brenntag in 2006 for about EUR 3 billion including debt, continues to own the majority of the company after having sold 4.45 million shares in the successful IPO held in March, which raised about EUR 223 million, generating a two-times return on its investment. Brenntag profits from buying chemicals in large quantities and selling them on in smaller packages to its more than 150'000 customers. During the investment period, Brenntag expanded its presence in Australia, South Africa and Indonesia.

In April, TPG Partners VI agreed to buy American Tire Distributors Holdings, the largest independent distributor of replacement tires to local, regional and national tire retailers, for approximately USD 1.3 billion. The company has a large network of 83 distribution centers serving 37 states. The company provides tire retailers with a range of services, including frequent and timely delivery of inventory and business support services, such as credit, training and access to consumer market data. Furthermore, the company administers tire manufacturer affiliate programs, a leading online ordering and reporting system and a website that enables its tire retailer customers to participate in Internet marketing of tires to consumers. The transaction is expected to close in the second quarter of 2010, subject to regulatory approval.
